

Call for Papers

2018 Utah Geological Association Guidebook *Geofluids of Utah*

The Utah Geological Association (UGA) invites you to contribute a paper for the 2018 guidebook focusing on the fluids in geologic media. The guidebook will include a wide range of subjects including, but not limited to:

- Hydrothermal fluids
- Hydrogeology
- Oil/Gas
- Water-Rock Interaction
- Geochemical evolution of fluids
- Properties of reservoirs (or aquifers)
- Energy and Minerals
- Groundwater/Surface Water Resources
- Environmental Geology, and
- Other Related Topics.

For authors interested in submitting material for the guidebook, a brief abstract or description (along with author and contact information / phone / email) should be submitted to Paul Inkenbrandt (paulinkenbrandt@utah.gov; 435-881-2816) by October 1, 2017. Authors will receive detailed information on preparation and submission of an electronic manuscript upon acceptance of the title and abstract/description. Papers are anticipated to be due in early 2018. Please contact Paul Inkenbrandt (paulinkenbrandt@utah.gov; 435-881-2816) or editors with any questions.

Thank you in advance for your contributions!
